Bring your questions to our panel discussion featuring current graduate students and a postdoctoral fellow.

Want to hear about graduate school from people who are currently in it? Then this panel is just for you! We've invited a Master's student, a PhD candidate and a postdoctoral fellow to come and answer your questions! So, if you are at all curious, please join us. You can ask them any questions you would like to, including: How do you pay for graduate school? How do you decide you want to get your higher degree? What do you want to (or what can you) do with a higher degree? What kind of research do you do? Our panelists are excited to give you their honest answers and advice!

Date: February 18, 2021

Time: 10:00 – 11:00 CDT
